Rt. 8, Frederick, Md. 21701
5/18/74

Dear Don Glass,

It is much more frightening that the broadcast indicated and not only with the courts and executive agencies.

Watergate has increased, not diminished, the hidden terror.

Much is being suppressed on it.

It is impossible to get a thorough book printed and I can't go into debt again to print my own, but I do continue this work.

It may not seem meaningful, but aside from informing one's self and then friends, for most people there remains only letting their elected representatives know how they feel.

The enclosed lists are what you asked for.

The lined-through books are not available.

Oswald in New Orleans is out of print. Of the few remaining copies I have, occasionally, when the interest seems sincere enough, I sell one for $21, the cost of electrostatic replacement here.

Sincerely,
